Increase sales with an eye-catching display

Aida is an innovative display range where design meets functionality and the latest technology meets eco-friendly ideals.

The best technical performance in its class

Aida has been developed to meet the most demanding customer needs and truly has it all – from outstanding design to superior technical details. Aida performs at the top of its class and uses 20% less energy than average serve-over counters of the same size. The stable and excellent temperature levels of this serve-over are ideal for even the most demanding product categories. Environmentally friendly refrigerant R290 can be chosen as an option.

Efficient use of floor space

Aida is a versatile, easy to maintain and eco-friendly range of display cabinets for pastry, snacks and other delicacies. Several cabinet models from service to self-service and different colour options make it a perfect fit for any shop floor or café, no matter how small. Aida has up to 25% more shelf space compared to other display cabinets of comparable size. Glass shelves and two front glass options make for great product visibility. This versatile display family truly is a masterpiece.

Aida is available as a plug-in cabinet.

Choose Aida for

- Versatile with several models from serve-over cabinets to bake off and hot counters
- Fits any store concept with two glass types and three body colours (gold, black and stainless steel)
- Beautiful styling and lighting present the most delicious looking products
- Easy to maintain and clean
- Excellent technical performance where a constant temperature is guaranteed, even for the most delicate pastry
- Several energy efficiency improving features available which lower energy consumption and save costs

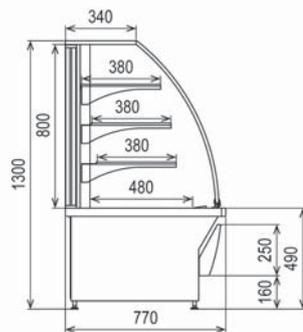

Technical specifications

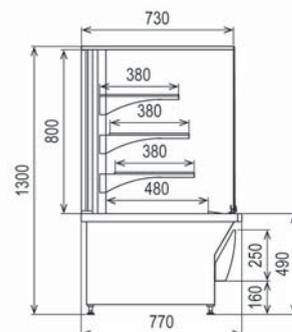

Front height (mm)	490

Benefits

With a versatile range of models, Aida easily adapts to different retail environments from small convenience stores to supermarkets.

- 1** Great product visibility with panorama ends and glass shelves
- 2** Attractive integrated LED lights increase sales and impulse purchases
- 3** Stable and excellent temperature levels to cope with the most demanding groceries
- 4** Up to 25% more shelf space
- 5** Top performer in energy efficiency, R290 coolant as an option
- 6** Easy to maintain and service

Success story: Baguette Helsinki, Finland

Aida service display cabinets combine functionality and impressive design to support pastry sales.

As part of renovations to the Baguette bakery and lunch café at the Malmin Nova shopping centre in Helsinki, owner Jari Liimatta, chose Viessmann's Aida cabinets to display his sweet and savoury bakery products. The Aida display cabinet's large glass surfaces and attractive lights would guarantee Mr Liimatta and his staff and customers excellent functionality and product visibility.

Baguette's previous display cabinets were around a decade old when problems began to arise that were no longer fixable. Jari Liimatta opted for the Viessmann Aida cabinets because of their attractiveness, functionality, ability to maintain a stable temperature and the fact that they are made in Finland.

Aida is a versatile, easy to maintain and eco-friendly range of display cabinets for pastry, snacks and other delicacies. Baguette's service counter boasts stainless steel Aida cabinets for both warm and chilled products.

The café has been using the display cabinets for a few years.

Baguette has been in business for 20 years, 10 of which were under Jari Liimatta's ownership. The lunch café has a stable clientele. Baguette's entrepreneur Jari Liimatta has run many other cafés, bakeries and restaurants and he was also one of the founders and owners of the Michelin-star restaurant Postres.

Entrepreneur Jari Liimatta and his staff are pleased with the functionality of the Aida cabinets.

Baguette's service counter boasts stainless steel Aida cabinets for both warm and chilled products.
